Subject Index: Volume 12, 1997

Abductor muscle
avulsion after hip arthroplasty, 202
Absorptiometry, dual-energy x-ray
of bone mineral density with stemless femoral implant, 373
of uncemented porous-coated femoral implants, 365
Acetabuloplasty
as isolated revision, 719
Acetabulum
bone–graft augmentation of, in hip arthroplasty, 503
computed tomography of periacetabular bone, 804
protrusion after hip arthroplasty, osteotomy for, 344
Age
and properties of periacetabular bone, 804
American Association of Hip and Knee Surgeons
abstracts from sixth annual meeting, 217
Amputation
after knee arthroplasty, in antibody-mediated drug reaction, 350
Animal studies
grafting affecting porous metal ingrowth, 451
stability of uncemented canine femoral components, 106
Antibiotics
intravenous, in infected knee arthroplasty, 426
Anticoagulants
preventing pulmonary embolism after knee arthroplasty, 180
Arthritis
degenerative. *See* Osteoarthritis
rheumatoid, of knee
and arthroplasty with kinematic prosthesis, 913
cemented arthroplasty for patients 55 and younger, 49
trabecular bone stiffness in, 798
Arthroscopic treatment
compared to arthroplasty in osteoarthritic knee, 465
in popliteus tendon dysfunction after knee arthroplasty, 353
Autotransfusions
after joint arthroplasty, 511, 517

Bi-Metric hip arthroplasty
femoral cortical remodeling after, 99
Biomechanics after knee arthroplasty
after bilateral procedure, 168
patellofemoral design affecting, 243
Bipolar hip prostheses
polyethylene debris in, compared to total hip implants, 32
Blood loss in knee arthroplasty
tourniquet use affecting, 291
Blood transfusions
postoperative autotransfusion after joint arthroplasty, 511, 517
Bone
appositional index for press-fit femoral endoprostheses, 930
ingrowth in porous-coated canine implants
femoral components in, 106
grafts affecting, 451
ingrowth in porous-coated tibial components, 920
interface with membrane in loosening of joint arthroplasties, 461
mineral density with stemless femoral implant, 373
periacetabular, computed tomography of, 804
remodeling
agents in periprosthetic pseudosynovial membrane, 670
in femoral cortices after uncemented hip arthroplasty, 99
response in uncemented porous-coated femoral implants, 365
scintigraphy of hydroxyapatite-coated hip prostheses, 380
spacers of antibiotic-loaded cement in two-stage revision hip arthroplasty, 615, 709
symmetry of bilateral normal strains in femurs, 689
tibial trabecular stiffness in rheumatoid arthritis, 798
Bone grafts
allografts in revision knee arthroplasty, 896
effects on porous metal ingrowth, 451
in hip arthroplasty
for acetabular deficiencies, 503
flying buttress acetabular graft, 706
harvesting of autogenous morcellized grafts, 704, 711
histology of allograft incorporation, 785
impaction femoral allografts
cement mantle in, 759
with extended osteotomy, 863
massive early subsidence after, 535
Bupivacaine
intra-articular, after knee arthroplasty, 546

***Candida* joint infection**
after knee arthroplasty, 825
C. parapsilosis in, and fluconazole levels in synovial fluid, 950
Carbon-fiber femoral component
early failure in hip arthroplasty, 356
Cardiovascular fitness
after hip arthroplasty, 84
Cement
acrylic, antibiotic-loaded, in revision hip arthroplasty, 615, 709
affecting properties of periprosthetic tissue, 670
mantle deficiencies decreased with distal centralizing device, 434
mantle in femoral impaction allografting, 759
strains near femoral component tip, 40
Centralizing device, distal
in hip arthroplasty, 434
Ceramic hip arthroplasty
wear of polyethylene acetabula with alumina femoral heads, 119
Cerclage techniques
comparison of, 772
Collared femoral components
compared to collarless, in cementless hip arthroplasty, 273
Compartment syndrome
in thigh after knee arthroplasty, 835
Computed tomography
of periacetabular bone, 804
and three-dimensional morphology of proximal femur, 444
Connective tissue activation
markers of, 695

Cruciate ligament, posterior
effects of sacrifice or retention in knee arthroplasty, 297, 541
and kinematics of mobile bearing prostheses, 777
recession in knee arthroplasty, 70
retention in knee arthroplasty
affecting femoral rollback, 553, 869
in Press-Fit Condylar arthroplasty, 603
Cytokines
in periprosthetic pseudosynovial membrane, 670

Debridement
arthroscopic, compared to arthroplasty in osteoarthritic knee, 465
and irrigation in infected knee arthroplasty, 426
Delamination wear
in condylar knee prostheses, 281
Dislocation of hip
and subtrochanteric femoral shortening osteotomy in arthroplasty, 880
Drainage
suction systems after joint arthroplasty, 317
Drug reaction
from heparin, and amputation after knee arthroplasty, 350

Embolism, pulmonary
fatal, after knee arthroplasty, 599
prevention with warfarin after knee arthroplasty, 180
Erratum, 234
Exercise
and cardiovascular fitness after hip arthroplasty, 84
Exeter femoral stem
in patients with small femurs, 267
Exeter impaction allografting
femoral, cement mantle in, 759
Expectations of patients
in hip arthroplasty, 387

Femur
cortical remodeling after uncemented arthroplasty, 99
cortical strain with slotted femoral stems, 657
impaction grafting in revision surgery
cement mantle in, 759
extended osteotomy with, 863
subsidence after, 535
nonsurgical management of supracondylar fracture above-knee arthroplasty, 830
osteolysis after low-friction arthroplasty, 624
osteonecrosis of head, cementless arthroplasty in, 683
osteotomy of. *See* Osteotomy, femoral
periprosthetic supracondylar fractures, 596
proximal, three-dimensional morphology of, 444
resurfacing of head for osteonecrosis, 736
rollback in knee arthroplasty with posterior cruciate ligament retention, 553, 869
small, and use of cemented Exeter implants, 267
subtrochanteric stress fracture after knee arthroplasty, 580
symmetry of bilateral normal strains in, 689
Fibroblasts
in aseptic hip prosthesis loosening, 695
in periprosthetic pseudosynovial membrane, 670
Fluconazole therapy
synovial fluid levels in *Candida parapsilosis* joint infection, 950
Fluoroscopic analysis
of knee arthroplasty function, 297
Food and Drug Administration
medical device reports, 765
Fractures
intra-articular tibial plateau stress fracture with valgus knee deformity, 635
subtrochanteric stress fracture after knee arthroplasty, 580
supracondylar, after knee arthroplasty
nonsurgical management of, 830
periprosthetic, 596
Frozen section
for synovial tissue examination, 64

Gait analysis after knee arthroplasty
in bilateral procedure, 168
patellofemoral design affecting, 243
Genesis Total Knee Arthroplasty System
follow-up study of, 91
Goniometer
intramedullary, in knee arthroplasty, 332

Harris–Galante prostheses
Porous, femoral stem evaluation in, 185
type I, three-dimensional polyethylene wear in, 256
type II acetabular cup, third-body wear in, 586
uncemented acetabular cup, migration of, 889
Heparin-induced thrombocytopenia
and amputation after knee arthroplasty, 350
Hip arthroplasty
abductor muscle avulsion after, 202
acetabular protrusion after, osteotomy for, 344
aseptic loosening of
bone–membrane interface in, 461
markers of connective tissue activation in, 695
assessment with visual analog scale, 416
bilateral pelvic osteolysis with McKee–Farrar prostheses, 819
bone–graft augmentation of acetabulum in, 503
causes of death after, 397
cemented
and cement strains near femoral component tip, 40
Exeter implant in small femurs, 267
follow-up study of, 479
cementless
acetabular cup geometry in, 207
and bone mineral density with stemless femoral implant, 373
collared versus collarless femoral components in, 273
dual-energy x-ray absorptiometry studies, 365
early failure of carbon-fiber femoral component in, 356
femoral component dislodged through buttock, 589
femoral cortical remodeling after, 99
femoral revision with modular titanium alloy stem, 194
inadequate polyethylene thickness causing osteolysis, 305
Integral porous femoral stem in, 250
migration of Harris–Galante acetabular cup in, 889
and osteolysis around Moore prosthesis, 346
in osteonecrosis of femoral head, 683
in patients 50 years old or younger, 853
polyethylene wear in press-fit prosthesis, 256
in revision surgery, evaluation of femoral components in, 839
Scandinavian study of Porous Coated Anatomic implant, 133
slotted femoral stem in, 657
stability of canine femoral components in, 106
third-body wear in, 586
unsatisfactory results with modular femoral stem, 490
closed wound drainage after, 317
collection of surgical specimens in, 60
distal centralizing device in, 434
effects on cardiovascular fitness, 84
FDA medical device reports, 765
feasibility affected by declining hospital reimbursements, 526
flying buttress acetabular bone graft in, 706
follow-up telephone calls after questionnaires on, 340
46-year survival of Smith–Petersen mold prosthesis, 584
Harris–Galante porous femoral stem in, 185
harvesting of autogenous morcellized bone graft in, 704, 711
heterotopic ossification prevented with indomethacin, 126
histology of allograft bone incorporation in, 785
human postmortem retrieval of, 562
hybrid, in younger patients, 646
leg-length inequality after, 359
and loosening of proximal femoral cemented endoprostheses, 741
low-friction, femoral osteolysis after, 624
measurement of outcome after, 639
polyethylene debris in bipolar versus total implants, 32
polyethylene liners for metal-backed acetabular cups, 25
postoperative blood salvage and reinfusion in, 511
postoperative duplex scanning in, 310

properties of periprosthetic tissues in, 670
quality of life after, 21
revision
and cement mantle in femoral impaction allografting, 759
cementless Anatomic Porous Replacement Revision Hip System in, 403
cementless modular titanium alloy femoral stem in, 194
early subsidence after femoral impaction grafting in, 535
evaluation of cementless femoral components in, 839
implant stability in, 863
isolated acetabuloplasty in, 719
migration of hydroxyapatite-coated cups in, 904
